

Brisko Metal Resources

**Leading Supplier of Diverse
Steel Products Worldwide**

Who We Are

Brisko - Supporting your next project

Specialising in quality, cost-effective wholesale steel since 1996, Brisko have become leading manufacturers and suppliers to the UK industry and abroad. Our flexible, customer-focused service is capable of delivering both custom and standard structural steel, scaffolding and pipes and tubes to suit any requirement.

In 2006, we entered into a strategic partnership with Taurani Holdings Group, a renowned conglomerate that stretches across 4 continents.

With our strong network of international suppliers and commitment to product excellence, Brisko is a supplier you can trust to fulfil your next project.

Lalit Premchandani
Managing Director of Brisko

Large Quantity Supply

Our comprehensive stockholding facilities allow us to deliver wholesale, large-quantity and bulk-order steel supply.

Structural Steel Solutions

We are experts in the manufacture and supply of CHS, RHS and SHS structural steel.

Extensive Manufacturing Capabilities

With eight running production lines working 24/7, our industrious factory produces over 150,000MT of welded steel tubes and line pipes annually.

Global Network

Our international network of fabrication facilities and global dispatch depots allow us to distribute our products worldwide.

Structural Steel

Brisko - Supporting Your Next Project

We are leading suppliers of structural steel products to a variety of industries across the UK and overseas.

With an established network of global supply chains, Brisko has the quality and quantity of structural steel to fulfil customer projects of any scale.

CHS

Circular

Hollow Sections
available in sizes

21.30 - 323.9mm OD

RHS

Rectangular

Hollow Sections
available in sizes

40 x 20 - 300 x 200mm

SHS

Square

Hollow Sections
available in sizes

20 x 20 - 250 x 250mm

Our premium hollow sections are manufactured with increased strength capabilities, close tolerances and in accordance with BS EN 10219 UK and European regulations and legislations.

Brisko's on-site processing facilities in Kingston upon Thames and Ipswich can provide a variety of finishes and cut lengths to suit your requirements, with bespoke options available on request.

Scaffolding

Brisko - Supporting Your Next Project

Brisko are industry leaders in wholesale scaffolding, bulk-buy scaffolding and international scaffolding distribution.

Our decades of experience provide us with the knowledge and resources to cater for scaffolding projects of any scale.

System Scaffolding

System scaffolding is a preferred option for sites with limited space due to its minimal number of components, modular capabilities and lack of protrusions.

At Brisko, we offer three unique and adaptable scaffold systems: K-Stage, K-Ring and K-Lock. Each of these are available painted, powder coated, electroplated or fully galvanised dependent on your requirements.

➔ System Scaffolding

Tubes & Fittings

This traditional form of scaffolding is the most widely used in the UK due to its superior versatility. Brisko offers an extensive variety of tube and fitting scaffolding products that are suitable for a wide range of applications.

Pipes and Tubes

Brisko - Supporting Your Next Project

We are leading UK suppliers for premium quality pipes and tubes for wholesale and bulk-buy orders.

With a diverse selection of seamless pipes, steel pipes, handrails and gas and water tubes in stock, our products are ideal for a wide range of applications in the steel and construction industries.

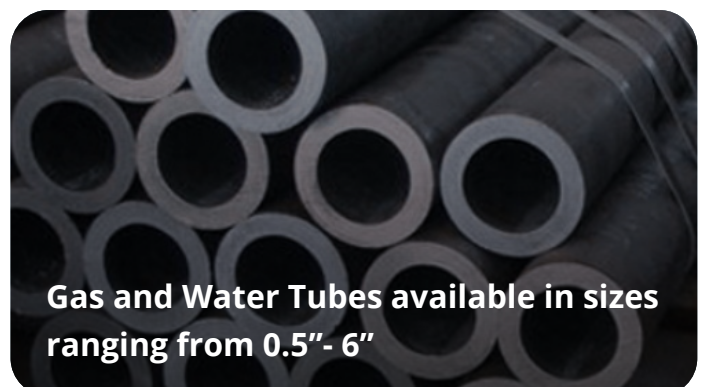

Pipes & Tubes

Put the finishing touch on your pipes or tubes by taking advantage of our in-house processing services, including galvanising, primer painting and powder coating.

Our API 5L Pipes and Seamless Pipes are manufactured specifically as welded steel line pipes for the oil and gas sectors and water industries. All our pipes are available in a variety of wall thicknesses and grades.

Aluminium Extrusions

Brisko - Supporting Your Next Project

Brisko have now added bespoke Aluminium Extrusions to our extensive selection of steel and scaffolding products.

Manufactured and supplied by our own group's extrusion plant in Dubai, this versatile material is a lightweight, strong and cost-effective solution for a wide range of applications in various industries.

Find the ideal fit for your project by customising our aluminium extrusions to meet your exact shape, size, length, finish and grade specifications.

Alloys – 6063, 6063A, 6082, 6005A, & 6061

THE MOST
SOPHISTICATED
PIPE WE'VE EVER
ENGINEERED.

FEATURES & BENEFITS

Manufactured using advanced technology for the ultimate solution in gas, water tube and pressure equipment. Highly engineered for the end user featuring:

THERMAL^x

THERMAL X

Elevated temperature properties with improved or added corrosion resistance, toughness and endurance. Suitable for temperature ranges -20°C to +300°C

total wall

TOTAL WALL RELIABILITY

Precision wall thickness for consistent end matching. Size range from ½ inch to 6 inch (15mm – 150mm NB)

LOOP360

LOOP360 PRECISION

Ultimate roundness for accurate alignment and durability when bending.

HYPER-FIT **PRO**

HYPER-FIT PRO

Faster, more accurate fit for quicker installation
